

## 1969 ARTICLE INDEX

A subject listing of articles published in MODERN MACHINE SHOP during the past year.

### ABRASIVE BELT MACHINING

Abrasive Belt Machining Cuts Weight . . . . .	Apr., 112
Nontraditional Machining — Where Do We Stand? . . . . .	July, 100
Diamond Belt Stays on Job . . . . .	July, 116
Secondary Flat Machining Costs Reduced . . . . .	Oct., 150
Diamond Abrasive Disc Sets Production Record . . . . .	Oct., 152

### ALLOYS

New Steels Solve Old Die Problems . . . . .	Jan., 122
SS Hollow Bar Saves Machining . . . . .	Jan., 158
Cutting Speed Up, Rejections Down . . . . .	Feb., 166
Nondeforming Tool Steel Assures Accuracy . . . . .	Mar., 166
Ultra Accurate Dimensions — With Extrusions . . . . .	June, 133
Automatic Machining of Aluminum . . . . .	Aug., 108
Rejects Eliminated by Switch to 303 Se . . . . .	Aug., 143
Stressproof Bars Reduce Maintenance . . . . .	Nov., 150
Machining and Drilling Speeds Increased . . . . .	Dec., 113

### ASSEMBLING

Pilot Aids Starting Wing Nuts . . . . .	Jan., 173
Boeing's Supertools . . . . .	June, 124

### BORING

Jilmil Saves An Hour Per Part . . . . .	Jan., 164
Hydrodynamic Spindle Bores Base Line of Accuracy . . . . .	Feb., 124
Machining Speed Up 50% . . . . .	Feb., 164
Carbide Insert Handles Heavy Boring Job . . . . .	May, 142
NC Machines Produce Precision Radial Holes . . . . .	June, 132
Refrigerated Coolant Leads to Better Boring . . . . .	July, 122
Forged Joints Finished in Single Chucking . . . . .	Aug., 142
Automatic Machining of Aluminum, Pt. III . . . . .	Oct., 126
Isolated Foundation Safeguards Machine . . . . .	Oct., 140
Machining Time Cut In Half . . . . .	Oct., 144
Machining Time Greatly Reduced . . . . .	Dec., 112
Machining and Drilling Speeds Increased . . . . .	Dec., 113

### BROACHING

SS Hollow Bar Saves Machining . . . . .	Jan., 158
Five-Inch Work From A Three-Inch Keyseater . . . . .	May, 120

### CARBIDE TOOLING

Throwaway Inserts Turn Complex Parts . . . . .	Feb., 136
High Production Press Used with Carbide Dies . . . . .	Mar., 158

CARBIDE TOOLING (CONT'D)

Carbide Insert Handles Heavy Boring Job . . . . .	May, 142
How To Bend A Carbide . . . . .	June, 138
Productivity and Tool Life Increased . . . . .	July, 127
Forged Joints Finished in Single Chucking . . . . .	Aug., 142
Automatic Machining of Aluminum, Pt. II . . . . .	Sept., 126
Profits Emerge From Cutting Tool Test . . . . .	Nov., 112
Machining Time Greatly Reduced . . . . .	Dec., 112
Production Jumps With Tracer Controls . . . . .	Dec., 120

CERAMIC TOOLING

Ceramics Today . . . . .	Mar., 116
--------------------------	-----------

CHUCKING

Nondeforming Tool Steel Assures Accuracy . . . . .	Mar., 166
Outstanding Results Achieved From Automatics . . . . .	July, 126

CLAMPING/HOLDING

Hydraulic Clamping Increases Production . . . . .	Jan., 168
Air/Hydraulic Clamping Speeds Tack Welding . . . . .	Mar., 164
Self-Contained Faceplate Clamp . . . . .	Mar., 176
Magnetic Chucking Triples Production . . . . .	Apr., 144
Accurate Shaping . . . . .	Apr., 152
Machining Tungsten . . . . .	May, 112
Thinking "Multiple" Boosts Production . . . . .	May, 117
Pin Vise Used for Drilling Small Holes . . . . .	June, 147
Pressure Pad Improves Drill Jig . . . . .	June, 149
Entire Workpiece Length Turned in Single Clamping . . . . .	July, 118
Extension Adaptor Reduces Clamping Time . . . . .	July, 138
Versatile Tool Holder for Diamond Dresser . . . . .	July, 139
Single-Spindle Disc Grinder Speeds Production . . . . .	Aug., 146
Custom Fixture Increases Profitable NC Lot Size . . . . .	Sept., 142
Universal Utility Clamp for Slotted Table . . . . .	Sept., 159
Diamond Abrasive Disc Sets Production Record . . . . .	Oct., 152
Precision, Clamping Principle . . . . .	Oct., 158
Impact Wrench Improved Clamping . . . . .	Oct., 159
Contour Gage Improves Fitup . . . . .	Dec., 132

COOLANTS

Drilling Productivity Can Be Improved . . . . .	Mar., 130
Fifteen Thousand Gallons of Coolant Saved . . . . .	June, 140
Refrigerated Coolant Leads to Better Boring . . . . .	July, 122
Automatic Machining of Aluminum, Pt. IV . . . . .	Nov., 120
T-Slots Machined Faster . . . . .	Dec., 120

DEBURRING

Burrs Blitzed With ECM. . . . .	Mar., 124
Positive, Economic Deburring . . . . .	Apr., 142
Why The Radial Lip? . . . . .	May, 124
Taking The Bends Out Of Bends . . . . .	May, 133
Low Cost Deburring . . . . .	Oct., 156

DIE DESIGN

New Steels Solve Old Die Problems. . . . .	Jan., 122
One Press Brake Forms 100 Different Body Parts . . . . .	Feb., 158
The Hydraulic Press — How Does It Compare . . . . .	Mar., 144
High Production Press Used with Carbide Dies . . . . .	Mar., 158
Accurate Shaping . . . . .	Apr., 152
Some Helpful Diemaking Techniques . . . . .	Nov., 129

DRILLING

EDM Drills Them Small. . . . .	Jan., 144
SS Hollow Bar Saves Money. . . . .	Jan., 158
Drill Presses Help Hyster Build Parts. . . . .	Feb., 154
Drilling Productivity Can Be Improved. . . . .	Mar., 130
Profits Up With NC Machines . . . . .	Mar., 159
The Truth About True Positioning . . . . .	April, 131
Automatic Countersinking Increases Production . . . . .	April, 146
Horizontal Drill Press . . . . .	April, 154
Thinking "Multiple" Boosts Production. . . . .	May, 117
Why The Radial Lip? . . . . .	May, 124
Machine Tool Designed Around Vacuum Cleaner . . . . .	May, 144
Mill-Drill Table Produces Precise Spiral Teeth . . . . .	May, 140
NC Machines Produce Precision Radial Holes . . . . .	June, 132
Pin Vise Used for Drilling Small Holes . . . . .	June, 147
Pressure Pad Improves Drill Jig . . . . .	June, 149
Large-Diameter Holes Successfully Cut . . . . .	July, 132
How To Select the Right NC Control System . . . . .	Aug., 121
Gundrilling Benefits . . . . .	Sept., 150
Automatic Machining of Aluminum . . . . .	Oct., 126
Tooling Costs Reduced . . . . .	Oct., 138
Machining Time Cut In Half. . . . .	Oct., 144
Precision Drilling at 360 Parts Per Hour . . . . .	Oct., 150
Machine It With A Diamond . . . . .	Nov., 118
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
Spindle Cap Retains Sleeve . . . . .	Nov., 155
Turret Drill Squeezes Cost From Plastics Machining . . . . .	Dec., 84
NC Contouring With Small Computers . . . . .	Dec., 95
Machining and Drilling Speeds Increased . . . . .	Dec., 113
Multiple-Hole Drilling on Converted Lathe . . . . .	Dec., 130

DUST CONTROL

Machine Tool Designed Around Vacuum Cleaner . . . . . May, 144

ELECTRICAL DISCHARGE MACHINING

Let's Discuss Electrical Machining, Pt. X . . . . . Jan., 130  
EDM Drills Them Small . . . . . Jan., 144  
Nontraditional Machining — Where Do We Stand? . . . . . July, 106  
EDM Cuts Machining Time . . . . . July, 136

ELECTROCHEMICAL MACHINING

Let's Discuss Electrical Machining, Pt. X . . . . . Jan., 130  
Better Finishes With Reverse-Flow ECM Tooling . . . . . Feb., 129  
Burrs Blitzed With ECM . . . . . Mar., 124  
Positive, Economical Deburring . . . . . Apr., 142  
Nontraditional Machining - Where Do We Stand? . . . . . July, 107  
Reinforced Plastic Long-Life Fixtures for ECM . . . . . Aug., 150  
Low Cost Deburring . . . . . Oct., 156  
Chemical Milling - When Should You Use It? . . . . . Dec., 88

ELECTROLYTIC GRINDING

Let's Discuss Electrical Machining, Pt. X . . . . . Jan., 130  
Nontraditional Machining - Where Do We Stand? . . . . . July, 98

EMPLOYEE TRAINING

Videotape Projects Training . . . . . Feb., 140  
Outstanding Results Achieved From Automatics . . . . . July, 126  
Training Indians In Metalworking Skills . . . . . Aug., 138  
What Sigma Means To Me . . . . . Sept., 114  
The Calculating Adding Machine . . . . . Dec., 101

EQUIPMENT DESIGNING

Difficult Tapping Job Made Easy . . . . . Jan., 162  
Friction-Drive Roller Made With O-Rings . . . . . Jan., 172  
Hydrodynamic Spindle Bores Base Line of Accuracy . . . . . Feb., 124  
Positive Control of Slugs and Chips - With Vacuum . . . . . Apr., 124  
Machine Tool Designed Around Vacuum Cleaner . . . . . May, 144  
Multi-Row Ball Bearing Increases Cutting Speed . . . . . June, 134  
Color Styling Has Many Facets . . . . . Oct., 122  
Isolated Foundation Safeguards Machine . . . . . Oct., 140  
Open-Loop Opens Retrofit Revolution . . . . . Nov., 134  
Hydraulic Power Shapes Spaceage Metals . . . . . Nov., 142  
Semi-Automated Straightening Process . . . . . Nov., 152

EQUIPMENT MAINTENANCE

Paint Stripe Aids In Checking For Nut Looseness . . . . . Jan., 171  
Pilot Aids Starting Wing Nuts . . . . . Jan., 173

EQUIPMENT MAINTENANCE (CONT'D)

Removing Broken Dowel . . . . .	Feb., 169
Truing Chuck Jaws . . . . .	Feb., 170
Hexagon Key Modification Aids Screw Placement. . . . .	Mar., 174
Back-Hammer Features Interchangeable Tips . . . . .	Mar., 175
Weldment Replaces Casting . . . . .	Apr., 136
Parts Sprayed With Ceramic Last Longer . . . . .	Apr., 140
Five-Inch Work From A Three-Inch Keyseater . . . . .	May, 120
Multi-Row Ball Bearing Increases Cutting Speed . . . . .	June, 134
Malfunctioning Gears & Bearings Quickly Located . . . . .	June, 136
Small Allen Wrench Made From Larger One . . . . .	June, 148
How To Select The Right NC Control System . . . . .	Aug., 121
Plate It — Don't Scrap It . . . . .	Aug., 132
Pump Shaft Reclaimed . . . . .	Aug., 148
Checking Feature Assures Machine Alignment . . . . .	Sept., 160
Isolated Foundation Safeguards Machine . . . . .	Oct., 140
Impact Wrench Improved Clamping . . . . .	Oct., 159
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
Stressproof Bars Reduce Maintenance Cost . . . . .	Nov., 150

FORMING

Forming With Upside-Down Urethane Die . . . . .	Jan., 157
Removing Springback on Sheet Metal Vee Forms. . . . .	Feb., 168
Bending Long-Legged U-Shapes . . . . .	Apr., 152
Stretch Press Save Material and Time. . . . .	May, 146
Taking The Bends Out Of Bends . . . . .	May, 133
How To Bend A Carbide . . . . .	June, 138
Nontraditional Machining - Where Do We Stand? . . . . .	July, 103
Rejects Eliminated by Switch to 303 Se. . . . .	Aug., 143
Two Press Brakes Team Up . . . . .	Sept., 146
Some Helpful Diemaking Techniques . . . . .	Nov., 129
Vee-Block and Dowel-Punch Used for Bending. . . . .	Nov., 154
Chart for Tapping & Extruding Sheet Metal Parts . . . . .	Dec., 127

GAGING

The Jigmil's New Look . . . . .	Jan., 116
Comparator Taper Gage . . . . .	Jan., 170
Keeping Your NC Honest . . . . .	Feb., 118
More Parts Inspected With Hardness Tester . . . . .	Mar., 168
A Look At The New Thread Forms. . . . .	June, 119
Ultra Accurate Dimensions — With Extrusions . . . . .	June, 133
Hollow Locator Features Flush Pin Check . . . . .	Aug., 155
Mini-Computer System Cuts NC Tape Costs . . . . .	Oct., 145
Checking Feature Assures Machine Alignment. . . . .	Sept., 160
Machining Time Greatly Reduced . . . . .	Dec., 112
Contour Gage Improves Fitup . . . . .	Dec., 132

GEAR MACHINING

New Hobbers Save Over An Hour Per Gear . . . . .	Mar., 162
Multi-Row Ball Bearing Increases Cutting Speed . . . . .	June, 134
Automated Gear Hobbing . . . . .	Sept., 140
Special Gear Shaper Cuts Costs . . . . .	Sept., 152

GRINDING

Precision, Repeatability Features A Grinder . . . . .	Jan., 156
Grinding Time Reduced 75% . . . . .	Feb., 160
Drilling Productivity Can Be Improved . . . . .	Mar., 130
Abrasive Belt Machining Cuts Weight . . . . .	Apr., 112
Machining Tungsten . . . . .	May, 112
Thinking "Multiple" Boosts Production of Small Parts . . . . .	May, 117
Why The Radial Lip? . . . . .	May, 124
West Coast Shop Masters Resizing Technique . . . . .	June, 116
Small Allen Wrench Made From Larger One. . . . .	June, 148
Diamond Belt Stays On Job . . . . .	July, 116
Versatile Tool Holder for Diamond Dresser . . . . .	July, 139
Single-Spindle Disc Grinder Speeds Production . . . . .	Aug., 146
Pump Shaft Reinforced . . . . .	Aug., 148
Automatic Machining of Aluminum, Pt. III . . . . .	Oct., 126
Secondary Flat Machining Costs Reduced . . . . .	Oct., 150
Diamond Abrasive Disc Sets Production Record. . . . .	Oct., 152
Centerless Form Grinding . . . . .	Nov., 148
Machining & Drilling Speeds Increased . . . . .	Dec., 113

HSS TOOLING

Automatic Machining of Aluminum, Pt. II. . . . .	Sept., 131
Machining Time Greatly Reduced . . . . .	Dec., 112

HEAT TREATING

More Parts Inspected With Hardness Tester . . . . .	Mar., 168
Automatic Machining of Aluminum, Pt. I . . . . .	Aug., 108

INSPECTION

Comparator Taper Gage . . . . .	Jan., 170
Paint Stripe Aids In Checking For Nut Looseness . . . . .	Jan., 171
More Parts Inspected With Hardness Tester . . . . .	Mar., 168
The Truth About True Positioning . . . . .	Apr., 131
Caliper Points Aid In Scribing & Checking . . . . .	May, 150
A Look At The New Thread Forms . . . . .	June, 119
Boeing's Supertools . . . . .	June, 124
Ultra Accurate Dimensions - With Extrusions . . . . .	June, 133
Hollow Locator Features Flush Pin Check . . . . .	Aug., 155
What Sigma Means To Me . . . . .	Sept., 114
Is It Flat? . . . . .	Sept., 138
Checking Feature Assures Machine Alignment . . . . .	Sept., 160
Tooling Costs Reduced . . . . .	Oct., 138

## INVENTORY CONTROL

After Fifty Years, Gantt Still Going Strong . . . . . Feb., 142

### JIGS & FIXTURES

Brighter Cosmetic Cases With Polishing-Buffing Units . . . . .	Feb., 155
Burrs Blutzed With ECM . . . . .	Mar., 124
Positive Control of Slugs & Chips - With Vacuum . . . . .	Apr., 124
Automatic Countersinking Increases Production . . . . .	Apr., 146
Accurate Shaping . . . . .	Apr., 152
Thinking "Multiple" Boosts Production of Small Parts . . . . .	May, 117
Weldment-Component Fixture Has Quick Release. . . . .	May, 151
Boeing's Supertools . . . . .	June, 124
Stacking Large Fixtures Without Racks . . . . .	June, 146
Pressure Pad Improves Drill Jigs . . . . .	June, 149
Extension Adaptor Reduces Clamping Time, . . . . .	July, 138
Reinforced Plastic Long-Life Fixtures For ECM. . . . .	Aug., 150
Keyed Bed Plates Replace Large Fixture Base. . . . .	Aug., 154
Custom Fixture Increases Profitable NC Lot Size . . . . .	Sept., 142
Universal Utility Clamp For Slotted Table . . . . .	Sept., 159
Machining Time Cut In Half . . . . .	Oct., 144
Precision Clamping Principle . . . . .	Oct., 158
Impact Wrench Improves Clamping . . . . .	Oct., 159
Cut-Off and Slot Jig Is Time Saver . . . . .	Oct., 160
Multiple-Hole Drilling on Converted Lathe . . . . .	Dec., 130

### LASER

Keeping Your NC Honest. . . . .	Feb., 118
Boeing's Supertools . . . . .	June, 124
Nontraditional Machining - Where Do We Stand? . . . . .	July, 104

### MACHINING CENTERS

The Jigmil's New Look. . . . .	Jan., 116
Jigmil Saves An Hour Per Part . . . . .	Jan., 164
Profits Up With NC Machines . . . . .	Mar., 159
How To Select The Right NC Control System . . . . .	Aug., 121
Tape Generates Machining Opportunities . . . . .	Aug., 130
Machining Time Cut In Half . . . . .	Oct., 144

### MATERIAL HANDLING

Horn Die For Thin-Wall Tubing . . . . .	Jan., 172
Machining Tungsten . . . . .	May, 112
Five-Inch Work From A Three-Inch Keyseater . . . . .	May, 120
15,000 Gallons of Coolant Saved . . . . .	June, 140
Stacking Large Fixtures Without Racks. . . . .	June, 146
Small-Parts Holder For Bandsaw Table . . . . .	July, 140
Device Collects and Stacks Sheared Strips . . . . .	Dec., 126

### MATERIALS

New Steels Solve Old Die Problems . . . . .	Jan., 122
Forming With Upside-Down Urethane Die . . . . .	Jan., 157

MATERIALS (CONT'D)

Cutting Speed Up, Rejections Down . . . . .	Feb., 166
Ceramics Today . . . . .	Mar., 116
Drilling Productivity . . . . .	Mar., 130
Welding Molybdenum . . . . .	Mar., 149
Nondeforming Tool Steel Assures Accuracy . . . . .	Mar., 166
Machining Tungsten . . . . .	May, 112
Automatic Machining of Aluminum, Pt. I . . . . .	Aug., 108
Rejects Eliminated by Switch to 303 Se. . . . .	Aug., 143
Reinforced Plastic Long-Life Fixtures for ECM . . . . .	Aug., 150
Automatic Machining of Aluminum, Pt. II . . . . .	Sept., 126
Machine It With A Diamond . . . . .	Nov., 118
Automatic Machining of Aluminum, Pt. IV . . . . .	Nov., 120
Some Helpful Diemaking Techniques . . . . .	Nov., 129
300-LB. Transmission Housing Cast in Magnesium . . . . .	Nov., 146
Penn Central Shops Switch to MIG . . . . .	Dec., 108
Machining Time Greatly Reduced . . . . .	Dec., 112
Machining and Drilling Speeds Increased . . . . .	Dec., 113

METAL CUTOFF

Positive Control of Slugs & Chips - With Vacuum . . . . .	Apr., 124
Taking The Bends Out Of Bends. . . . .	May, 133
Automatic Machining of Aluminum, Pt. II . . . . .	Sept., 137
Color Styling Has Many Facets . . . . .	Oct., 122
Cut-Off and Slot Jig Is Time Saver . . . . .	Oct., 160
Machining and Drilling Speeds Increased . . . . .	Dec., 113
Abrasive Cutoff Machine For Bar Stock . . . . .	Dec., 118

METAL MARKING

Pneumatic Press Marks Sweeper Bottoms . . . . .	Nov., 156
---	-----------

METALLIZING

Parts Sprayed With Ceramic Last Longer . . . . .	Apr., 140
Plate It — Don't Scrap It . . . . .	Aug., 132
Pump Shaft Reclaimed . . . . .	Aug., 148

MILLING

Jigmil Saves An Hour Per Part . . . . .	Jan., 164
Hydraulic Clamping Increases Production. . . . .	Jan., 168
Positive Control of Slugs and Chips - With Vacuum . . . . .	Apr., 128
Camtrol Reduces Labor Costs 30% . . . . .	Apr., 141
Thinking "Multiple" Boosts Production . . . . .	May, 117
Retrofit Route To NC Cuts Cost and Lead Time. . . . .	May, 138
Milling Machine Speeds Production . . . . .	May, 139
Mill-Drill Table Produces Precise Spiral Teeth . . . . .	May, 140
How To Select The Right NC Control System . . . . .	June, 111
West Coast Shop Masters Resizing Technique . . . . .	June, 116

MILLING (CONT'D)

How To Select The Right NC Control System . . . . .	July, 111
How To Select The Right NC Control System . . . . .	Aug., 121
Tape Generates Machining Opportunities . . . . .	Aug., 130
Hollow Locator Features Flush Pin Check . . . . .	Aug., 155
Optical Tracing Was The Only Way . . . . .	Sept., 147
Milling Versatility Was The Result . . . . .	Sept., 154
Isolated Foundation Safeguards Machine . . . . .	Oct., 140
Machine It With A Diamond . . . . .	Nov., 118
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
Hydraulic Power Shapes Spaceage Metals . . . . .	Nov., 142
NC Contouring With Small Computers . . . . .	Dec., 95
T-Slots Machined Faster . . . . .	Dec., 120

NUMERICAL CONTROL

The Jigmil's New Look . . . . .	Jan., 116
Jigmil Saves An Hour Per Part. . . . .	Jan., 164
Keeping Your NC Honest . . . . .	Feb., 118
Profits Up With NC Machines . . . . .	Mar., 159
Computer Makes Scale Drawings . . . . .	Mar., 172
The Small Computer Can Do Big NC Work . . . . .	Apr., 118
Taking The Bends Out Of Bends . . . . .	May, 133
Retrofit Route To NC Cuts Cost . . . . .	May, 138
Thinking "Multiple" Boosts Production of Small Parts . . . . .	May, 117
How To Select The Right NC Control System . . . . .	June, 111
NC Machines Produce Precision Radial Holes . . . . .	June, 132
How To Select The Right NC Control System, Pt. II . . . . .	July, 111
First Century Computer Installation Runs Smoothly . . . . .	July, 130
How To Select The Right NC Control System, Pt. III . . . . .	Aug., 121
Tape Generates Machining Opportunities . . . . .	Aug., 130
Custom Fixture Increases Profitable NC Lot Size. . . . .	Sept., 142
Programmed Cutting Tools Ride High. . . . .	Oct., 112
Machining Time Cut In Half. . . . .	Oct., 144
Mini-Computer System Cuts NC Tape Costs. . . . .	Oct., 145
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
NC Contouring With Small Computers . . . . .	Dec., 95

PLANT LAYOUT

Programmed Cutting Tools Ride High . . . . .	Oct., 112
--	-----------

PLANT MANAGEMENT

Machine Classification: A Basis For Machine Loading . . . . .	Jan., 138
After Fifty Years, Gantt Still Going Strong . . . . .	Feb., 142
Making Safety Everyone's Business . . . . .	June, 126
Outstanding Results Achieved From Automatics. . . . .	July, 126
First Century Computer Installation Runs Smoothly . . . . .	July, 130

PLANT MANAGEMENT (CONT'D)

Automatic Machining of Aluminum . . . . .	Aug., 108
Programmed Cutting Tools Ride High . . . . .	Oct., 112
Tooling Costs Reduced . . . . .	Oct., 138
Chemical Milling - When Should You Use It? . . . . .	Dec., 88
The Calculating Adding Machine . . . . .	Dec., 101

POLISHING

Brighter Cosmetic Cases With Polishing-Buffing Units . . . . .	Feb., 155
Abrasive Belt Machining Cuts Weights . . . . .	Apr., 112
Nontraditional Machining - Where Do We Stand . . . . .	July, 102

PRESSWORKING

Forming With Upside-Down Urethane Die . . . . .	Jan., 157
Horn Die For Thin-Wall Tubing . . . . .	Jan., 172
One Press Brake Forms 100 Different Body Parts . . . . .	Feb., 158
Removing Springback on Sheet Metal Vee Forms . . . . .	Feb., 168
The Hydraulic Press - How Does It Compare? . . . . .	Mar., 144
High Production Press Used With Carbide Dies . . . . .	Mar., 158
Positive Control of Slugs & Chips - With Vacuum . . . . .	Apr., 124
Weldment Replaces Casting in Machine Repair . . . . .	Apr., 136
Hydraulic Press Decreases Rejects . . . . .	Apr., 150
Bending Long-Legged U-Shapes . . . . .	Apr., 152
Taking The Bends Out Of Bends . . . . .	May, 133
Stretch Press Saves Material & Time . . . . .	May, 146
How To Select The Right NC Control System . . . . .	Aug., 121
Rejects Eliminated by Switch to 303 Se . . . . .	Aug., 143
Two Press Brakes Team Up . . . . .	Sept., 146
Color Styling Has Many Facets . . . . .	Oct., 122
Some Helpful Diemaking Techniques . . . . .	Nov., 129
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
Semi-Automated Straightening Process . . . . .	Nov., 152
Vee-Block and Dowel-Punch Used for Bending . . . . .	Nov., 154
Device Collects and Stacks Sheared Strips . . . . .	Dec., 126

QUALITY CONTROL

The Truth About True Positioning . . . . .	Apr., 131
A Look At The New Thread Forms . . . . .	June, 119
What Sigma Means To Me . . . . .	Sept., 114
Is It Flat? . . . . .	Sept., 138
Checking Feature Assures Machine Alignment . . . . .	Sept., 160
Tooling Costs Reduced . . . . .	Oct., 138

SAFETY

Making Safety Everyone's Business . . . . .	June, 126
---	-----------

SAWING

Large-Diameter Holes Successfully Cut . . . . .	July, 132
Small-Parts Holder for Bandsaw Table . . . . .	July, 140

SCRAP HANDLING

Positive Control of Slugs & Chips - With Vacuum . . . . .	Apr., 124
15,000 Gallons of Coolant Saved . . . . .	June, 140

SCREW MACHINE TOOLING

15,000 Gallons of Coolant Saved . . . . .	June, 140
Large-Diameter Holes Successfully Cut . . . . .	July, 132
Automatic Machining of Aluminum, Pt. I . . . . .	Aug., 108
Automatic Machining of Aluminum, Pt. II . . . . .	Sept., 126
Automatic Machining of Aluminum, Pt. III . . . . .	Oct., 126
Precision Drilling At 360 Parts Per Hour . . . . .	Oct., 150
Automatic Machining of Aluminum, Pt. IV . . . . .	Nov., 120
Production Jumps With Trace Control . . . . .	Dec., 120

TAPPING

Difficult Tapping Job Made Easy . . . . .	Jan., 162
Jigmil Saves An Hour Per Part . . . . .	Jan., 164
Thinking Multiple Boosts Production of Small Parts . . . . .	May, 117
Automatic Machining of Aluminum, Pt. III . . . . .	Oct., 126
Machining Time Cut In Half . . . . .	Oct., 144
Turret Drill Squeezes Cost From Plastics Machining . . . . .	Dec., 84
Chart For Tapping & Extruding Sheet Metal Parts . . . . .	Dec., 127

TESTING

EB Welds Need Multiple Tests . . . . .	Jan., 108
Profits Emerge From Cutting Tool Test . . . . .	Nov., 112

THREAD CUTTING AND ROLLING

A Look At The New Thread Forms . . . . .	June, 119
Automatic Machining of Aluminum . . . . .	Oct., 126

TOOL DESIGN

Better Finishes With Reverse-Flow ECM Tooling . . . . .	Feb., 129
Ceramics Today . . . . .	Mar., 116
Burrs Blitzed With ECM . . . . .	Mar., 124
Nondeforming Tool Steel Assures Accuracy . . . . .	Mar., 166
Abrasive Belt Machining Cuts Weight . . . . .	Apr., 112
Positive Control of Slugs and Chips - With Vacuum . . . . .	Apr., 124
Machine Tool Designed Around Vacuum Cleaner . . . . .	May, 144
West Coast Shop Masters Resizing Technique . . . . .	June, 116
Automatic Machining of Aluminum, Pt. II . . . . .	Sept., 126
Programmed Cutting Tools Ride High . . . . .	Oct., 112
Profits Emerge From Cutting Tool Test . . . . .	Nov., 112
Machine It With A Diamond . . . . .	Nov., 118

TOOL SYSTEMS

Machine Classification: Basis For Machine Loading . . . . . Jan., 138

TRACING

Camtrol Reduces Labor Costs 30% . . . . .	Apr., 141
Thinking "Multiple" Boosts Production . . . . .	May, 117
Mill-Drill Table Produces Precise Spiral Teeth . . . . .	May, 140
Optical Tracing Was The Only Way . . . . .	Sept., 147
Milling Versatility Was The Result . . . . .	Sept., 154
Mini-Computer System Cuts NC Tape Costs . . . . .	Oct., 145
Profits Emerge From Cutting Tool Test . . . . .	Nov., 112
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
Diplomatic Copier Reduces Machine Time . . . . .	Nov., 144
Production Jumps With Tracer Control . . . . .	Dec., 120
Contour Gage Improves Fitup . . . . .	Dec., 132

TURNING

Throwaway Inserts Turn Complex Forms . . . . .	Feb., 136
Truing Chuck Jaws . . . . .	Feb., 170
Ceramics Today . . . . .	Mar., 116
Self-Contained Faceplate Clamp . . . . .	Mar., 176
Camtrol Reduces Labor Costs 30% . . . . .	Apr., 141
Magnetic Chucking Triples Production . . . . .	Apr., 144
Machining Tungsten . . . . .	May, 112
Mill-Drill Table Produces Precise Spiral Teeth . . . . .	May, 140
Workpiece Length Turned In Single Clamping . . . . .	July, 118
Productivity & Tool Life Increased . . . . .	July, 127
How To Select The Right NC Control System . . . . .	Aug., 121
Pump Shaft Reclaimed . . . . .	Aug., 148
Hollow Locator Features Flush Pin Check . . . . .	Aug., 155
Wire Hoop Aids Chucking . . . . .	Aug., 156
Automatic Machining of Aluminum, Pt. II . . . . .	Sept., 126
Old Spindle Center Is Speedy Chuck Changer . . . . .	Sept., 158
Cutoff and Slot Jig Is Time Saver . . . . .	Oct., 160
Profits Emerge From Cutting Tool Test . . . . .	Nov., 112
Machine It With A Diamond Tool . . . . .	Nov., 118
Open-Loop Opens Retrofit Revolution . . . . .	Nov., 134
Diplomatic Copier Reduces Machining Time . . . . .	Nov., 144
Machining Time Greatly Reduced . . . . .	Dec., 112
Machining and Drilling Speeds Increased . . . . .	Dec., 113
Production Jumps With Trace Control . . . . .	Dec., 120
Multiple-Hole Drilling On Converted Lathe . . . . .	Dec., 130

ULTRASONIC MACHINING

Nontraditional Machining - Where Do We Stand . . . . . July, 101

WELDING

EB Welds Need Multiple Tests . . . . .	Jan., 108
Welding Molybdenum . . . . .	Mar., 149
Air/Hydraulic Clamping Speeds Tack Welding . . . . .	Mar., 164
Weldment Replaces Casting . . . . .	Apr., 136
Weldment-Component Fixture Has Quick Release . . . . .	May, 151
West Coast Shop Masters Resizing Technique . . . . .	June, 116
Penn Central Shops Switch To MIG . . . . .	Dec., 108

## 1970 ARTICLE INDEX

A subject listing of articles published in MODERN MACHINE SHOP  
during the past year.

### ALLOYS

Use The Right Alloy Steel.....	Feb., 105
Less Tool Wear With CMC Stainless.....	Feb., 125
Hold It! with Low-Melting-Point Alloys.....	Mar., 114
Machining Titanium Alloys.....	May, 139
Tap And Tool Life Increased With Stainless Steel.....	May, 147
Teamwork Builds A Better Air Conditioner.....	Oct., 139
SM Stainless Steel Saves Machining Time.....	Dec., 84
Warm-Heading Wear Problem Solved.....	Dec., 87

### ASSEMBLING

It Takes \$10 Million To Produce Reactor Parts.....	Feb., 112
How To Weld Light-Gauge Metals.....	Mar., 120
Ultrasonic Assembly.....	June, 152
Parts and Orders -- Where Are They?.....	Nov., 79
Simplified Stud Driver.....	Dec., 92

### BORING

Spade Drilling Big Holes.....	Jan., 103
It Takes \$10 Million To Produce Reactor Parts.....	Feb., 113
Less Tool Wear With CMC Stainless.....	Feb., 125
A 1200 Percent Increase In Tool Life.....	Feb., 132
Special Center Heads Stimulate Actuator Production.....	Mar., 126
NC Machining Center Is 8 Machines In One.....	Apr., 142
One Machine Does Work Of Four.....	Apr., 146
A Hole Is More Than A Dimension.....	May, 124
Adapter Doubles Production.....	May, 156
Readout Doubles The Functions.....	June, 110
What's New In Steady Rests...At Oak Ridge.....	June, 130
Flexible Automation.....	July, 106
Add Carbides To Your Payroll.....	July, 114
Roller Burnishing Eliminates Secondary Operation.....	Aug., 127
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 98
Where Have The Handwheels Gone?.....	Oct., 108
Conventional Machining Is Alive And Well.....	Oct., 130
Building-Block Special Machine Reduces Boring Costs.....	Oct., 134
Machining Time Reduced 40 Percent.....	Nov., 108
Hand Gages Speed Inspection.....	Nov., 109
Milling Machine Has Simultaneous Five-Axis Contouring Capability.....	Dec., 78

### BROACHING

Broaching Is For More Than Autos.....	Feb., 82
Keyway Broaching Cuts Job Shop Costs.....	Apr., 143
Aerospace Parts Cutting On A Low Budget.....	May, 148

BURNISHING

Finishing Time Cut In Half.....	Jan., 118
Finishing And Threading 1018 Plague You?.....	Apr., 116
Roller Burnishing Eliminates Secondary Operation.....	Aug., 127
Roller Burnishing Improves The Finish.....	Nov., 85

CARBIDE TOOLING

Less Tool Wear With CMC Stainless.....	Feb., 125
Machinable Carbide Cuts Production Cost.....	Mar., 122
Add Carbides To Your Payroll.....	May, 114
Machining Titanium Alloys.....	May, 139
Add Carbides To Your Payroll.....	June, 116
Add Carbides To Your Payroll.....	July, 114
Add Carbides To Your Payroll.....	Aug., 88
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 123
Add Carbides To Your Payroll.....	Oct., 112
Conventional Machining Is Alive And Well.....	Oct., 130
Add Carbides To Your Payroll.....	Nov., 96
Add Carbides To Your Payroll.....	Dec., 56
Titanium Carbide Increases Tool Life.....	Dec., 88

CERAMIC TOOLING

Add Carbides To Your Payroll.....	Dec., 56
-----------------------------------	----------

CHUCKERS

Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 93
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 110
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 115
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 126

CLAMPING/HOLDING

Threaded Work Held With Nut.....	Jan., 127
Multiple Shaft Machining.....	Jan., 128
Clamp Supports Save Time.....	Feb., 130
Welding Frame Reduces Clamping Operations.....	Feb., 138
Hold It! with Low-Melting-Point Alloys.....	Mar., 114
Multiple Work Holding Grinding Fixture.....	Apr., 158
Shaper And Grinder Fixture.....	May, 159
Fast Tapping.....	June, 144
Clamp For Machining Metal Balls.....	June, 148
Efficient Clamping Fixture.....	June, 149
Versatile Expanding Arbor.....	July, 139
Power Clamping Components Increase Production.....	Aug., 122
Simple Locking Principle Has Many Uses.....	Aug., 129
Adjustable Table Support.....	Nov., 117
Hexagon Sleeve Made In The Shop.....	Dec., 91

COOLANTS

Central Filtration For Precision Grinding.....	Mar., 110
Rotary Carrier Grinder Solves Problem.....	Mar., 124
Machining Titanium Alloys.....	May, 139
Coolant Feeding Drills Reduce Costs.....	May, 154
New Nozzle Makes Grinding Coolants Work.....	July, 100
How One Screw Machine Shop Achieved Mist-Free Air.....	Oct., 116
Roller Burnishing Improves The Finish.....	Nov., 84
Cutting Oil Increases Production And Tool Life.....	Nov., 112
New Abrasive Masters Tool Steel.....	Dec., 61

DIE DESIGN

One Tape-Controlled Die Punches 38 Different Parts.....	Jan., 82
Pressbrake Dies From Round Bars.....	Feb., 137
Machinable Carbide Cuts Production Cost.....	Mar., 122
Fluidics Used To Protect Dies.....	Apr., 150
Notching Die For Angle Iron.....	Apr., 159
Die Bends Two Parts Per Stroke.....	May, 158
Will Your Forming Die Work?.....	Aug., 78
Have You Tried Cryogenics?.....	Aug., 91
2,000-Ton NC Forging Facility Speeds Ingot Conversion.....	Dec., 81
Optimum Progressive Die Design With Aid Of Computer.....	Dec., 82
Die Making Operations Go NC.....	Dec., 85
Warm-Heading Wear Problem Solved.....	Dec., 87

DRILLING

Evolving The Right NC Computer Programming.....	Jan., 92
Spade Drilling Big Holes.....	Jan., 103
Small-Plant Equipment Modernization.....	Jan., 107
Custom-Built Parts For Safer Racers.....	Feb., 102
It Takes \$10 Million To Produce Reactor Parts.....	Feb., 112
Multiple-Spindle Drilling On Lathe.....	Feb., 136
Hold It! With Low-Melting-Point Alloys.....	Mar., 114
Right-Angle Driver Speeds Chuck Adjustments.....	Mar., 132
The M-40's Tough But Grindable.....	Apr., 122
NC Machining Center Is 8 Machines In One.....	Apr., 142
Six-Station Dial Machine.....	Apr., 154
Portable Drill Aids Maintenance.....	Apr., 158
Coolant Feeding Drills Reduce Costs.....	May, 154
Adapter Doubles Production.....	May, 156
Readout Doubles The Functions.....	June, 110
Clamp For Machining Metal Balls.....	June, 148
Handy Hole Locating Method.....	June, 149
A Guide To Digital Position Readouts.....	Aug., 98
Measuring System Can Generate NC Tape.....	Aug., 124
Roller Burnishing Eliminates Secondary Operation.....	Aug., 127
Setting Accurate Drill Depths.....	Aug., 129
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 91
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 96
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 107
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 111

DRILLING (CONT'D)

Conventional Machining Is Alive And Well.....	Oct.,	130
Vee-Block Drill Jig.....	Oct.,	141
Machining Time Reduced 40 Percent.....	Nov.,	108
Adjustable Table Support.....	Nov.,	117
Milling Machine Has Simultaneous Five-Axis Contouring Capability.....	Dec.,	78
Die Making Operations Go NC.....	Dec.,	85

DUST CONTROL

Exhausters Remove Welding Fumes.....	Jan.,	120
Finished Parts Rust-Proofed Automatically.....	July,	135
Dust-Collecting Workbenches Solve Problem.....	Aug.,	123
How One Screw Machine Shop Achieved Mist-Free Air.....	Oct.,	116
One Collector Captures Dust From 16 Stations.....	Nov.,	111

ELECTRICAL DISCHARGE MACHINING

Burning Power Is Earning Power.....	Jan.,	114
It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112

ELECTROCHEMICAL MACHINING

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
---	-------	-----

EMPLOYEE TRAINING

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
And The Walls Come Tumbling Down.....	May,	122
Why Do Supervisory Training Courses Fail?.....	May,	157
Draftsman's Conversion Angle.....	May,	160
Add Cafibides To Your Payroll.....	June,	116
Handy Hole Locating Method.....	June,	149
Let's Abandon Unilateral Tolerances.....	July,	123
Ring Binder Improves Presentations.....	July,	140
The Shows -- Fact, Fun, Or Frustration.....	Aug.,	106
The Psychology Of Planning.....	Oct.,	121
The Psychology Of Change.....	Nov.,	101

EQUIPMENT DESIGNING

Shop-Designed Gear Drives Down Costs.....	Jan.,	101
Rotary Carrier Grinder Solves Problem.....	Mar.,	124
Special Center Heads Stimulate Actuator Production.....	Mar.,	126
Do You Know Your Press?.....	Apr.,	132
Six-Station Dial Machine.....	Apr.,	154
Do You Know Your Press?.....	May,	132
Adapter Doubles Production.....	May,	156
Draftsman's Conversion Angle.....	May,	160
What's New In Steady Rests... At Oak Ridge.....	June,	130
\$46 Filter Saves \$18,000 Machine.....	June,	138
Fast Tapping.....	June,	144
New Nozzle Makes Grinding Coolants Work.....	July,	100
Production With Engineered Tooling.....	July,	133
A Guide To Digital Position Readouts.....	Aug.,	98
Where Have The Handwheels Gone?.....	Oct.,	108

EQUIPMENT DESIGNING ( CONT'D )

How One Screw Machine Shop Achieved Mist-Free Air.....	Oct.,	116
Clean Air Key To Wire Stripping Operation.....	Oct.,	128
Building-Block Special Machine Reduces Boring Costs.....	Oct.,	134
The Two Faces Of Fluid Logic.....	Dec.,	49

EQUIPMENT MAINTENANCE

Plastic Plugs Improve Fixture Changeover.....	Jan.,	126
Portable Drill Aids Maintenance.....	Apr.,	158
Flexible Automation.....	July,	106
A Guide To Digital Position Readouts.....	Aug.,	98
Worn Socket-Head Capscrews Easily Removed.....	Oct.,	142
Tubing Flared Without Splitting.....	Nov.,	116
Adjustable Table Support.....	Nov.,	117
Effect Of Dressing With Diamond Wheels.....	Dec.,	72
Overhead Hoist Rotates Large Trunnion Fixture.....	Dec.,	90
Hexagon Sleeve Made In The Shop.....	Dec.,	91
Simplified Stud Driver.....	Dec.,	92

FORMING

Custom-Built Parts For Safer Racers.....	Feb.,	102
Pressbrake Dies From Round Bars.....	Feb.,	137
One Machine Does Work Of Four.....	Apr.,	146
Tap And Tool Life Increased With Stainless Steel.....	May,	147
Die Bends Two Parts Per Stroke.....	May,	158
Will Your Forming Die Work?.....	Aug.,	78
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	100
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	121

GAGING

Setting Accurate Drill Depths.....	Aug.,	129
------------------------------------	-------	-----

GEAR MACHINING

Shop-Designed Gear Drives Down Costs.....	Jan.,	100
Sharpening Spur Cutters Or Helical Cutters With Low Helix Angles.....	Apr.,	160
Quality Gear Inspection.....	June,	120
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	117
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	124

GRINDING

Cutting-Tool Production Increased 70 Percent.....	Jan.,	116
Finishing Time Cut In Half.....	Jan.,	118
Abrasive Cutoff Machine Cuts Costs.....	Jan.,	122
Custom-Built Parts For Safer Racers.....	Feb.,	102
It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
Production Grinder Delivers High Productivity.....	Feb.,	126
Central Filtration For Precision Grinding.....	Mar.,	110
Hold It! With Low-Melting-Point Alloys.....	Mar.,	114
Rotary Carrier Grinder Solves Problem.....	Mar.,	124

GRINDING (CONT'D)

The M-40's Tough But Grindable.....	Apr.,	122
High Speed Surface Grinder Increases Production.....	Apr.,	144
Multiple Work Holding Grinding Fixture.....	Apr.,	158
Sharpening Spur Cutters Or Helical Cutters With Low Helix Angles.....	Apr.,	160
Shaper And Grinder Fixture.....	May,	159
Precision Grinder For Fiberglas Nose Cones.....	June,	134
New Nozzle Makes Grinding Coolants Work.....	July,	100
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	102
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	119
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	125
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	127
New Abrasive Masters Tool Steel.....	Dec.,	61
Effect Of Dressing With Diamond Wheels.....	Dec.,	72

HSS TOOLING

Cutting-Tool Production Increased 70 Percent.....	Jan.,	116
Less Tool Wear With CMC Stainless.....	Feb.,	125
Look, Boss - No Long Chips.....	Apr.,	119
The M-40's Tough But Grindable.....	Apr.,	122
Have You Tried Cryogenics?.....	Aug.,	91
Add Carbides To Your Payroll.....	Nov.,	96

HEAT TREATING

Use The Right Alloy Steel.....	Feb.,	105
Have You Tried Cryogenics?.....	Aug.,	91

HONING

A Hole Is More Than A Dimension.....	May,	124
--------------------------------------	------	-----

INSPECTION

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
The Tangible Tangent.....	Feb.,	120
A Hole Is More Than A Dimension.....	May,	124
Lasers For Measurement And Control.....	June,	104
Readout Doubles The Functions.....	June,	110
Quality Gear Inspection.....	June,	120
Let's Abandon Unilateral Tolerances.....	July,	123
Measuring System Can Generate NC Tape.....	Aug.,	124
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	105
Hand Gages Speed Inspection.....	Nov.,	109

JIGS & FIXTURES

Small-Plant Equipment Modernization.....	Jan.,	107
Plastic Plugs Improve Fixture Changeover.....	Jan.,	126
Hold It! With Low-Melting-Point Alloys.....	Mar.,	114
Rotary Carrier Grinder Solves Problem.....	Mar.,	124
Multiple Work Holding Grinding Fixture.....	Apr.,	158
Shaper And Grinder Fixture.....	May,	159
Fast Tapping.....	June,	144
Clamp For Machining Metal Balls.....	June,	148
Efficient Clamping Fixture.....	June,	149

JIGS & FIXTURES (CONT'D)

Continuity Indicator Assures Workpiece Location.....	July, 138
Power Clamping Components Increase Production.....	Aug., 122
Simple Locking Principle Has Many Uses.....	Aug., 129
Vee-Block Drill Jig.....	Oct., 141
Vise Extension Holds Large Work.....	Nov., 116
Pipe Plug Helps In Machining Thin-Wall Tubes.....	Dec., 91

LASER

Lasers For Measurement And Control.....	June, 104
---	-----------

LUBRICATION

Finished Parts Rust-Proofed Automatically.....	July, 135
How One Screw Machine Shop Achieved Mist-Free Air.....	Oct., 116
Coated Taps Stand Up To Exotics.....	Oct., 129
Cutting Oil Increases Production And Tool Life.....	Nov., 112

MACHINING CENTERS

Evolving The Right NC Computer Programming.....	Jan., 92
NC Machining Center Is 8 Machines In One.....	Apr., 142
Adapter Doubles Production.....	May, 156
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 91
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 96
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 111
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 116
Machining Time Reduced 40 Percent.....	Nov., 108
Milling Machine Has Simultaneous Five-Axis Contouring Capability.....	Dec., 78
Modules Combined Into Powerful NC Machining Center.....	Dec., 79
Die Making Operations Go NC.....	Dec., 85

MATERIAL HANDLING

Air Casters Streamline Operations.....	Mar., 128
Loading Pedestals Aid Big Turning Jobs.....	June, 142
Pallet Hook Balances In Two Directions.....	Oct., 140
Parts And Orders -- Where Are They?.....	Nov., 79
Parts Transfer And Placement System.....	Dec., 79

MATERIALS

Custom-Built Parts For Safer Racers.....	Feb., 102
No Flaws In These Tungsten Welds.....	Mar., 103
Machinable Carbide Cuts Production Cost.....	Mar., 122
The M-40's Tough But Grindable.....	Apr., 122
Machining Titanium Alloys.....	May, 139
Black-Oxide Parts In-House.....	May, 146
Butterfly Valves Produced With Stainless Steel.....	July, 132
Add Carbides To Your Payroll.....	Oct., 112
Coated Taps Stand Up To Exotics.....	Oct., 129
Teamwork Builds A Better Air Conditioner.....	Oct., 139
New Abrasive Masters Tool Steel.....	Dec., 61
Effect Of Dressing With Diamond Wheels.....	Dec., 72

METAL CUTOFF

Abrasive Cutoff Machine Cuts Costs.....	Jan.,	122
It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
Ball Point Pen Tests Flame Cutting Machines.....	Aug.,	128
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	113
Cut-Off Machine Cuts Cost.....	Nov.,	113

METALLIZING

Add Carbides To Your Payroll.....	Nov.,	96
-----------------------------------	-------	----

METALLURGY

Use The Right Alloy Steel.....	Feb.,	105
Metal Cutting Theory.....	July,	118
Butterfly Valves Produced With Stainless Steel.....	July,	132
Have You Tried Cryogenics?.....	Aug.,	91

MILLING

Cutting-Tool Production Increased 70 Percent.....	Jan.,	116
Multiple Shaft Machining.....	Jan.,	128
Milling Benefits Derived From Tracer.....	Feb.,	124
Milling Costs Reduced.....	Mar.,	123
The M-40's Tough But Grindable.....	Apr.,	122
NC Machining Center Is 8 Machines In One.....	Apr.,	142
Add Carbides To Your Payroll.....	May,	114
Adapter Doubles Production.....	May,	156
\$46 Filter Saves \$18,000 Machine.....	June,	138
Clamp For Machining Metal Balls.....	June,	148
Machining Time Slashed With Adaptive Control.....	July,	130
End Mill Cutting Capacity Increased.....	July,	131
NC or Tracing Without Gears Or Hydraulics.....	July,	226
Have You Tried Cryogenics?.....	Aug.,	91
A Guide To Digital Position Readouts.....	Aug.,	98
Power Clamping Components Increase Production.....	Aug.,	122
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	91
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	96
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	111
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	116
Add Carbides To Your Payroll.....	Oct.,	112
Conventional Machining Is Alive And Well.....	Oct.,	130
Add Carbides To Your Payroll.....	Nov.,	96
Machining Time Reduced 40 Percent.....	Nov.,	108
Milling Machine Has Simultaneous Five-Axis Contouring Capability....	Dec.,	78
Adaptive Control For Lathes.....	Dec.,	80
Die Making Operations Go NC.....	Dec.,	85

NUMERICAL CONTROL

One Tape-Controlled Die Punches 38 Different Parts.....	Jan.,	82
Evolving The Right NC Computer Programming.....	Jan.,	92
It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
NC Lathe Price Barrier Smashed.....	Apr.,	114
NC Machining Center Is 8 Machines In One.....	Apr.,	142

NUMERICAL CONTROL (CONT'D)

And The Walls Come Tumbling Down.....	May,	122
Adapter Doubles Production.....	May,	156
Readout Doubles The Functions.....	June,	110
Precision Grinder For Fiberglas Nose Cones.....	June,	134
Loading Pedestals Aid Big Turning Jobs.....	June,	142
Flexible Automation.....	July,	106
Machining Time Slashed With Adaptive Control.....	July,	130
Production With Engineered Tooling.....	July,	133
NC Or Tracing Without Gears Or Hydraulics.....	July,	226
Measuring System Can Generate NC Tape.....	Aug.,	124
Dihedral Shear Table.....	Oct.,	225
Parts And Orders -- Where Are They?.....	Nov.,	79
Modules Combined Into Powerful NC Machining Center.....	Dec.,	79
Adaptive Control For Lathes.....	Dec.,	80
2,000-Ton NC Forging Facility Speeds Ingot Conversion.....	Dec.,	81
Optimum Progressive Die Design With Aid Of Computer.....	Dec.,	82

PLANT LAYOUT

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
How One Screw Machine Shop Achieved Mist-Free Air.....	Oct.,	116
Parts And Orders -- Where Are They?.....	Nov.,	79

PLANT MANAGEMENT

Small-Plant Equipment Modernization.....	Jan.,	107
A Detached Look At Value Analysis.....	Feb.,	98
The Tangible Tangent.....	Feb.,	120
And The Walls Come Tumbling Down.....	May,	122
Flexible Automation.....	July,	106
Let's Abandon Unilateral Tolerances.....	July,	123
Ring Binder Improves Presentations.....	July,	140
The Shows -- Fact, Fun, Or Frustration.....	Aug.,	106
Parts And Orders -- Where Are They?.....	Nov.,	79
The Psychology Of Change.....	Nov.,	101
The Two Faces Of Fluid Logic.....	Dec.,	49
Effect Of Dressing With Diamond Wheels.....	Dec.,	72
<b>The Psychology of Planning</b>	<b>Oct.,</b>	<b>121</b>

POLISHING/FINISHING

Finishing And Threading 1018 Plague You?.....	Apr.,	116
A Hole Is More Than A Dimension.....	May,	124
Black-Oxide Parts In-House.....	May,	146
Ultrasonics Clean Debris From Small Parts.....	May,	152
Quality Gear Inspection.....	June,	120
Ultrasonic System Cleans Parts Faster And Better.....	July,	136
Dust-Collecting Workbenches Solve Problem.....	Aug.,	123
Clean Air Key To Wire Stripping Operation.....	Oct.,	128
Coated Taps Stand Up To Exotics.....	Oct.,	129
In-House Plating Of Custom Stampings.....	Oct.,	224
Roller Burnishing Improves The Finish.....	Nov.,	84
Add Carbides To Your Payroll.....	Dec.,	56

PRESSWORKING

One Tape-Controlled Die Punches 38 Different Parts.....	Jan.,	82
Clamp Supports Save Time.....	Feb.,	130
Pressbrake Dies From Round Bars.....	Feb.,	137
Air Casters Streamline Operations.....	Mar.,	128
What Is Isostatic Pressing?.....	Mar.,	136
Do You Know Your Press?.....	Apr.,	132
Fluidics Used To Protect Dies.....	Apr.,	150
Notching Die For Angle Iron.....	Apr.,	159
Do You Know Your Press?.....	May,	132
Die Bends Two Parts Per Stroke.....	May,	158
Compression Molding Press For Toronado Valance Panels.....	June,	135
Invisible Radio-Wave Shield Protects Blind Operator.....	June,	140
Will Your Forming Die Work?.....	Aug.,	78
Have You Tried Cryogenics?.....	Aug.,	91
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	108
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	118
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	128
Little Parts From Big Sheets Grow.....	Oct.,	98
Dihedral Shear Table.....	Oct.,	225
Pressworking From A New Angle -- Including Tapping.....	Nov.,	90
2,000-Ton NC Forging Facility Speeds Ingot Conversion.....	Dec.,	81
Die Making Operations Go NC.....	Dec.,	85
Warm-Heading Wear Problem Solved.....	Dec.,	87

QUALITY CONTROL

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
A Hole Is More Than A Dimension.....	May,	124
Lasers For Measurement And Control.....	June,	104
Readout Doubles The Functions.....	June,	110
Quality Gear Inspection.....	June,	120
Flexible Automation.....	July,	106
Let's Abandon Unilateral Tolerances.....	July,	123
Measuring System Can Generate NC Tape.....	Aug.,	124
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	105
Hand Gages Speed Inspection.....	Nov.,	109

SAFETY

Exhausters Remove Welding Fumes.....	Jan.,	120
Look, Boss - No Long Chips.....	Apr.,	119
High Speed Surface Grinder Increases Production.....	Apr.,	144
Invisible Radio-Wave Shield Protects Blind Operator.....	June,	140
One Collector Captures Dust From 16 Stations.....	Nov.,	111

SAWING

Add Carbides To Your Payroll.....	Nov.,	96
Cut-Off Machine Cuts Cost.....	Nov.,	113

SCRAP HANDLING

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
---	-------	-----

#### SCREW MACHINE TOOLING

Less Tool Wear With CMC Stainless.....	Feb.,	125
Damage-Free Workpieces.....	Mar.,	133
Finishing And Threading 1018 Plague You?.....	Apr.,	116
Ultrasonics Clean Debris From Small Parts.....	May,	152
Coolant Feeding Drills Reduce Costs.....	May,	154
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	104
How One Screw Machine Shop Achieved Mist-Free Air.....	Oct.,	116
Roller Burnishing Improves The Finish.....	Nov.,	84
Cutting Oil Increases Production And Tool Life.....	Nov.,	112
SM Stainless Steel Saves Machining Time.....	Dec.,	84

#### TAPPING

Small-Plant Equipment Modernization.....	Jan.,	107
Finishing And Threading 1018 Plague You?.....	Apr.,	116
NC Machining Center Is 8 Machines In One.....	Apr.,	142
Tap And Tool Life Increased With Stainless Steel.....	May,	147
Adapter Doubles Production.....	May,	156
Fast Tapping.....	June,	144
Coated Taps Stand Up To Exotics.....	Oct.,	129
Pressworking From A New Angle -- Including Tapping.....	Nov.,	90
Machining Time Reduced 40 Percent.....	Nov.,	108

#### TESTING

It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
Will Your Forming Die Work?.....	Aug.,	78

#### THREAD CUTTING

Threaded Work Held With Nut.....	Jan.,	127
Finishing And Threading 1018 Plague You?.....	Apr.,	116
Look, Boss - No Long Chips.....	Apr.,	119
One Machine Does Work Of Four.....	Apr.,	146
New Die Head Design.....	July,	227
Rear-Mounted Tracers Reduce Down Time.....	Aug.,	126
Coated Taps Stand Up To Exotics.....	Oct.,	129

#### TOOL DESIGN

Plastic Plugs Improve Fixture Changeover.....	Jan.,	126
The Tangible Tangent.....	Feb.,	120
A 1200 Percent Increase In Tool Life.....	Feb.,	132
Selection And Application Of Single-Point Metal-Cutting Tools.....	May.,	162
New Nozzle Makes Grinding Coolants Work.....	July,	100
Add Carbides To Your Payroll.....	July,	114
Metal Cutting Theory.....	July,	118
End Mill Cutting Capacity Increased.....	July,	131
Add Carbides To Your Payroll.....	Oct.,	112

#### TOOL SYSTEMS

Selection And Application Of Single-Point Metal-Cutting Tools.....	May,	162
Little Parts From Big Sheets Grow.....	Oct.,	98

TRACING

Custom-Built Parts For Safer Racers.....	Feb.,	102
Milling Benefits Derived From Tracer.....	Feb.,	124
Milling Costs Reduced.....	Mar.,	123
Production With Engineered Tooling.....	July,	133
NC Or Tracing Without Gears Or Hydraulics.....	July,	226
Rear-Mounted Tracers Reduce Down Time.....	Aug.,	126
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	101

TURNING

Evolving The Right NC Computer Programming.....	Jan.,	92
Finishing Time Cut In Half.....	Jan.,	118
Tailstock Spindle Indicates Carriage Travel.....	Mar.,	134
NC Lathe Price Barrier Smashed.....	Apr.,	114
Look, Boss - No Long Chips.....	Apr.,	119
The M-40's Tough But Grindable.....	Apr.,	122
One Machine Does Work Of Four.....	Apr.,	146
Add Carbides To Your Payroll.....	May,	114
Machining Titanium Alloys.....	May,	139
Coolant Feeding Drills Reduce Costs.....	May,	154
What's New In Steady Rests...At Oak Ridge.....	June,	130
Loading Pedestals Aid Big Turning Jobs.....	June,	142
Flexible Automation.....	July,	106
Metal Cutting Theory.....	July,	118
Production With Engineered Tooling.....	July,	133
Versatile Expanding Arbor.....	July,	139
Add Carbides To Your Payroll.....	Aug.,	88
A Guide To Digital Position Readouts.....	Aug.,	98
Rear-Mounted Tracers Reduce Down Time.....	Aug.,	126
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	90
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	94
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	106
Take A Look At The Latest Tools For Modern Metalworking.....	Sept.,	114
Where Have The Handwheels Gone?.....	Oct.,	108
Roller Burnishing Improves The Finish.....	Nov.,	84
Add Carbides To Your Payroll.....	Dec.,	56
Adaptive Control For Lathes.....	Dec.,	80
Titanium Carbide Increases Tool Life.....	Dec.,	88
Pipe Plug Helps In Machining Thin-Wall Tubes.....	Dec.,	91

ULTRASONIC MACHINING

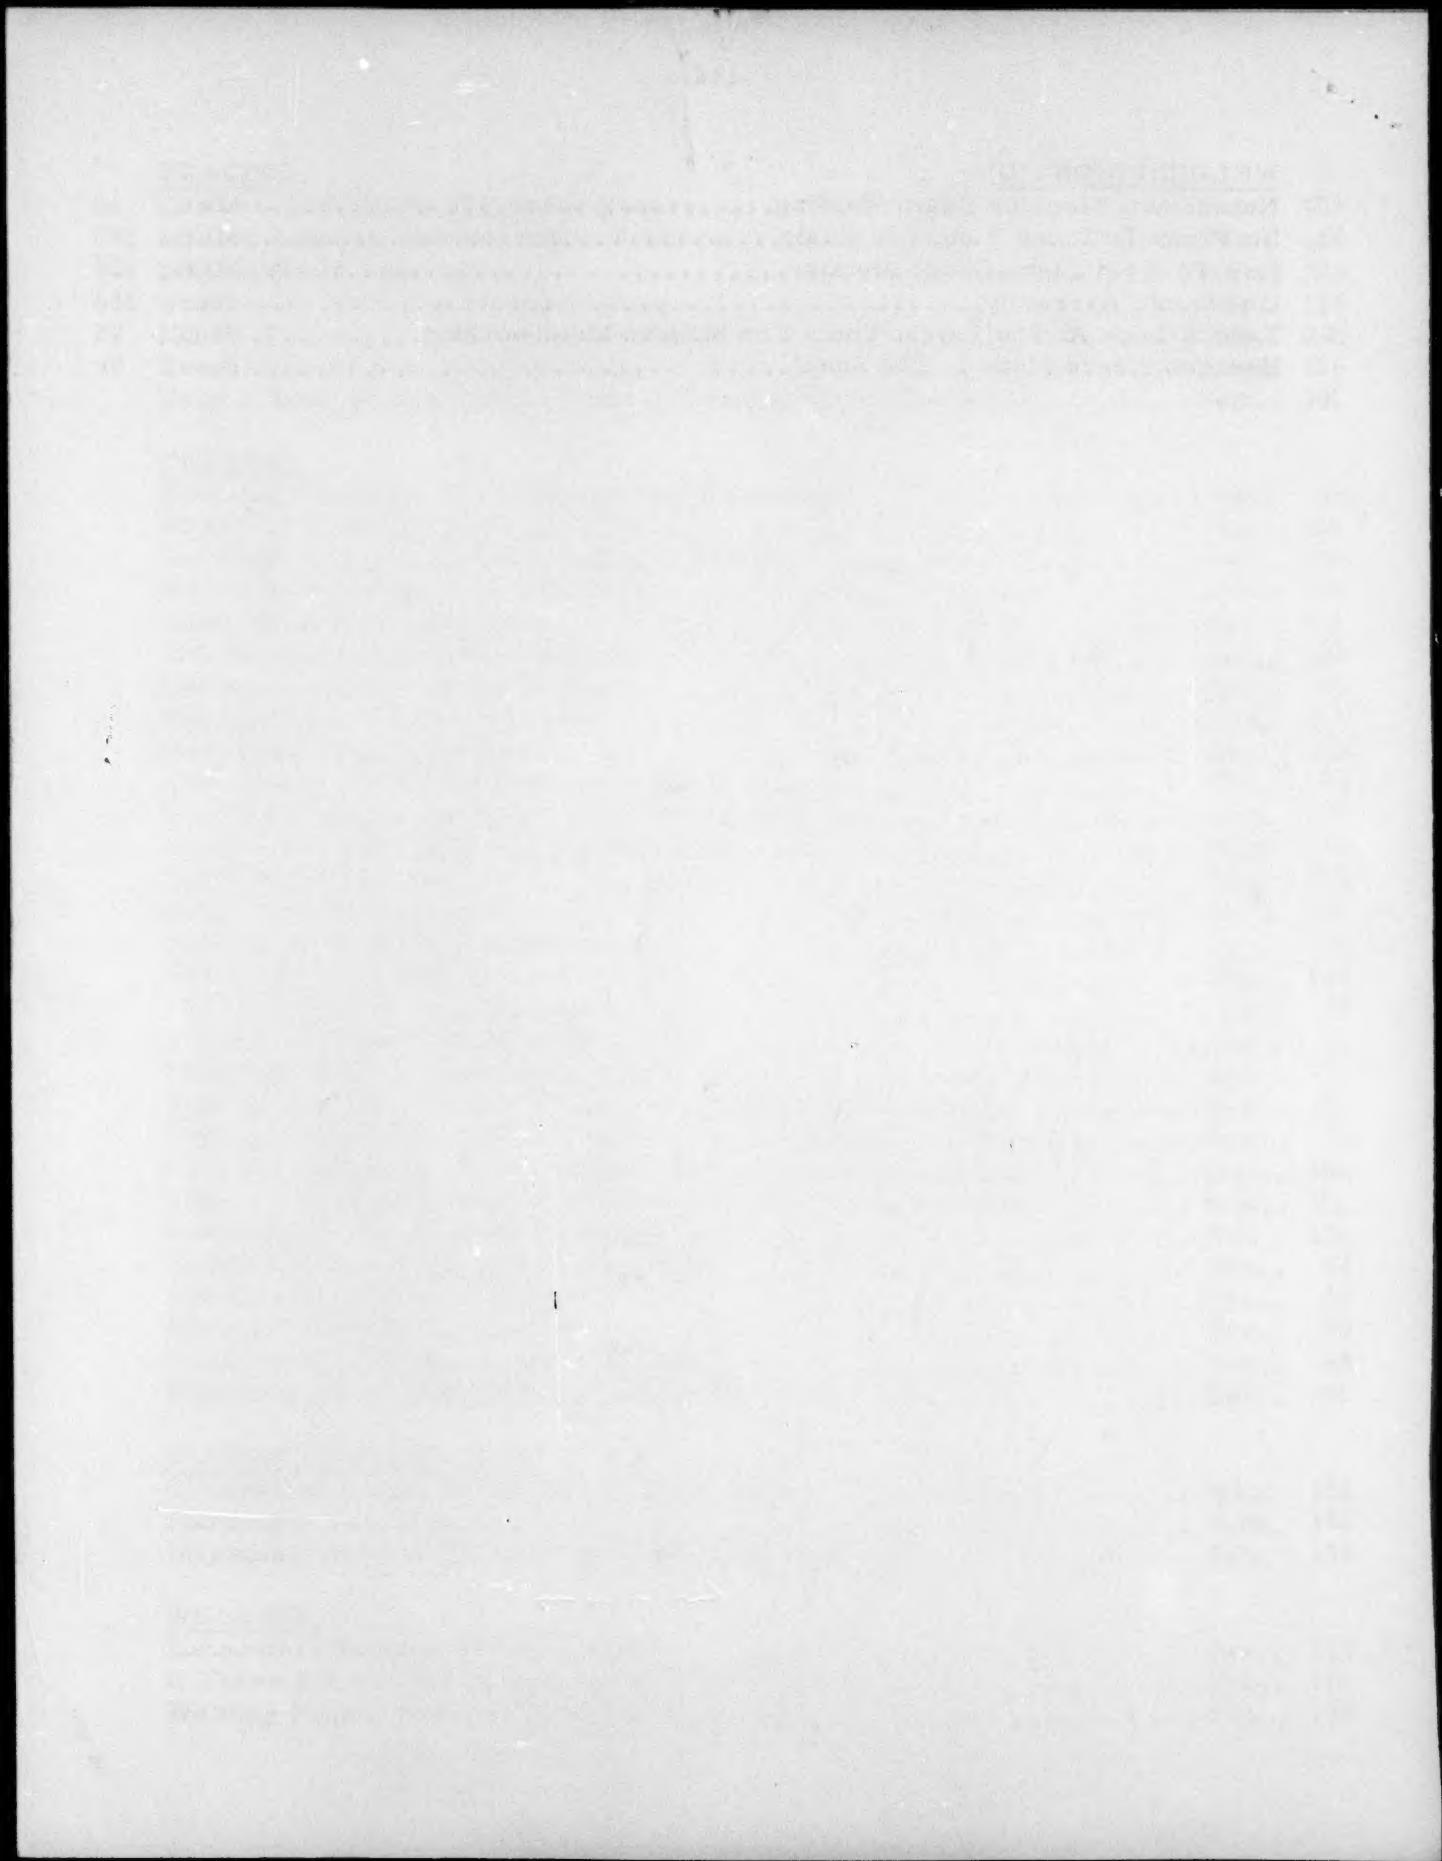

Ultrasonics Clean Debris From Small Parts.....	May,	152
Ultrasonic Assembly.....	June,	152
Ultrasonic System Cleans Parts Faster And Better.....	July,	136

WELDING

Exhausters Remove Welding Fumes.....	Jan.,	120
It Takes \$10 Million To Produce Reactor Parts.....	Feb.,	112
Welding Frame Reduces Clamping Operations.....	Feb.,	138

WELDING (CONT'D)

Nonvacuum Electron Beam Welding.....	Mar., 98
No Flaws In These Tungsten Welds.....	Mar., 103
How To Weld Light-Gauge Metals.....	Mar., 120
Ultrasonic Assembly.....	June, 152
Take A Look At The Latest Tools For Modern Metalworking.....	Sept., 95
Hexagon Sleeve Made In The Shop.....	Dec., 91
